

# Trade Secrets of the Jewish Ruling Class

By FRED FARREL

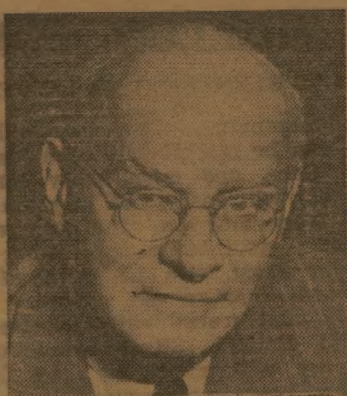

Americans know very little about their Jewish overlords. This does not really matter much. The Jewish overlords understand their American slaves extremely well and bend them expertly to the Jewish will. Every ruling class has its own distinctive style of ruling; but at bottom all ruling classes are alike. Their basic aim is to get and hold power over the people. Ruling classes have little to do with shaping history; they always seek first to serve their own ends, and history be damned. They only accidentally make history. The favored classes are like the foam on the surface of the sea; the masses are the great ocean of humanity itself. History is made by the culture-cycles which arise among the masses. The favored classes are those who have read the signs of the times and have acted accordingly with skill and determination.

The Jews are clever in a low way. They are extremely skilled technicians of power; but they have only a limited experience in governing large nations. Most of that experience has been developed in the U.S.A. The Jews have developed many of their power-techniques by experimenting with the American people. The power techniques have nothing to do with the imbecilities of popular political controversy, of course. Political controversy is for amusement only. It has nothing to do with the way in which actual power is exercised. The Jews and their American subjects are slowly arriving at an accommodation with each other. It may be of help to the American subjects to have a better understanding of their Jewish overlords.

We understood the old WASP ruling class easily. They were simple, vigorous, forthright, dynamic men. We knew that the rich WASP was the worst humbug on God's footstool. Once one of them got started humbugging, he would spout enough worthless clichés to fill a book. The WASPS had their faults. They were narrow, bigoted, puritanical, and limited. Still, they were good men. They built America, settled the west and conquered the Indians, and built the cities and railroads. They failed to endear themselves to Catholics, whose religion they tried to wipe out in favor of their own. They always wanted to give labor the Protestant work ethic in lieu of wages. In spite of their faults, the WASPS were great. We can say to them, "WELL DONE!"

The Jews are harder for Americans to understand. They are total culture aliens; and, besides that, a great deal of misinformation has been circulated about them. Not by Common Sense, of course; we always tell the truth about them; but many Jews and anti-Semites alike spread false information about the Jews.

Many people think that the Jews are "Communists." The Jew is, first, last, and always, a capitalist. This is the field in which his best talents lie. The Jew uses Marxism as an adjunct to capitalism. He uses it extensively; but it is always subordinate to capitalism. The Jew may use "Communist Revolution" to take over a distant country which he wishes to bring under his control; but after he gets secure control of it, he will turn it back to capitalism and open it up for trade. This is why Nixon is going to Red China. This did not quite work out in Russia; but the Jews tried hard there. Under the "New Economic Policy" (NEP) of the 1920's the Jews, having won the revolution, were busily turning Russia into a capitalist country run from Wall Street. This play went wrong when the vulgar Josef Stalin decided to have Military Socialism in Russia. The Jews were greatly distressed by this, but Stalin was a quick man with firing squads, so they decided to go along. Fifty years later they are still wondering when they will get a chance to turn Russia

EMANUEL CELLER, notorious Zionist, dedicated Marxist, is chairman of the all-important House Judiciary Committee, and the Capital's most infamous saboteur of effective legislation to protect our national security, anti-crime legislation, etc. Once delivered a "Boycott Americans" speech in favor of Israel before the House, yet Americans have tolerated this mis-representative for 50 years! As it has happened, so many times in the past, so now, one man can block vital pending legislation that could end forced school busing. That man is the saboteur, Emanuel Celler!

into a proper capitalist society. The answer is "never." No matter what the British Israel racketeers say, the Jews are not running Russia, which is why it has military socialism instead of Jewish capitalism. Red China will get Jewish capitalism in a hurry.

There is absolutely no danger of a "Jew-Communist" revolution in the U.S.A. The Jews do not need a revolution to put them into power in the U.S.A. They already have three generations of experience in ruling the U.S.A. Some right wing papers are always telling us how the Jews are plotting with "Red Russia" to bring off a take-over here. God only knows why they fling such humbug. I certainly cannot imagine why. It is like saying that Louis XIV needed a revolution to take over the palace at Versailles. The Jews need a revolution in America like they need a hole in the head. They are fully in control of the government, the media, the economy, the educational system, the Christian Churches, and anything else you can name. Why try to tell us that they need a "revolution" to take over? An idiot child would laugh at such a story.

The Jews have already taken over and enslaved the proud American white majority, and have bent this proud people to their will. Their mastery over the nation is superb. They do not need a thing which they do not already have. They are going about the business of changing the country to suit themselves with great vigor, skill, and energy. Their American subjects may expect to have an exciting time. The Americans will live under capitalist slavery, not Communist slavery. After some further experience with Jew-capitalist slavery, they may well wonder which is the worst.

This Jewish slave state is not the old America. This is Babylon the great, the scarlet woman. Forget the old America. It is gone with the wind. We are now in a new ball game entirely.

An important Jewish goal is THE RUIN OF THE WHITE MIDDLE CLASS. This is vitally important. The native white middle class is greedy, selfish, intelligent, and politically dangerous to the Jews. Therefore it must go. The Jews are taking their time about this, though. In the 1920's they ruined the German middle class too rapidly. In no time at all, the German middle class were running around practically in a body wearing swastikas and howling for the blood of the Jews. The Jews learned a lesson from that. They are going about the ruin of the American white middle class in a much more circumspect way. Nevertheless, it is a goal pursued with great determination. It is a matter of power-technique. When you want to enslave people, you must deprive them of the good qualities which would help them to stay free. You must undermine their character, morals, and family life.

The worst possible thing to do is to ruin them financially first, while they are still

in possession of the political franchise and their class character. Financial ruin will drive them wild, and they will turn on you in anger and rip you to pieces, as the German middle class did when they were financially ruined by the Jews in the 1920's. The Jews will not repeat that mistake in America. Over a period of time, they have gradually undermined the character, morals, and family life of the white middle class. They also have deprived them of the political franchise, through racial minority control of all of the party machinery. Today the white middle class of America is politically dead. The one remaining item is to strip them of their economic and social status and proletarianize them. This is the next step; but their ruin is already accomplished. They can now be turned over to the Negroes for joyous plundering. Their ruin will be decreed by the whole apparatus of government, by Congress and President and Supreme Court. They will be able to offer only futile resistance.

The Jews make extensive use of mythologies to rule their subjects. The principal myths revolve around Marxism. There are two "Wings" called the "Right Wing" and the "Left Wing." Both of these are run by the Jews. When ripples of discontent pass through the ranks of their subjects, a suitable right wing or left wing "channelizer" always appears quickly on the scene. He is a trouble-shooter, designed to correct the difficulty. He seizes leadership of the discontented and leads them infallibly to defeat. This is the principal occupation of all of the great lying, howling, raving, yipping, yapping charlatans of the American right and the American left. A few honest simpletons get into this game by mistake and start small right or left wing organizations in good faith, but these are mere amateurs. The professionals know the real name of the game. This system insures the Jews absolutely against any successful rebellion against their political power. The Jews say smugly, "be sure that if there is to be any opposition against us, we ourselves will control it." They do control it. You cannot lose if you control both sides.

All the time people say to us, "you are wrong about Joe Blow, the great patriot, the great anti-Communist. You have called him a dirty Jew stooge. Cancel my subscription to Common Sense. I do not want to support a paper which insults this great patriot."

We sigh with resignation. We know that Joe Blow's wife's father is secretary of the Anti-Defamation League in his home town, and that Joe Blow himself is as phony as a nine-dollar bill. But what can you do? How can you beat the Jews, when these stupid Goyim run after their phony decoys in this fashion?

You can't beat them as long as they have the right-left system. Smash this one system, and their flimsy power structure will collapse like the house of cards that it is. This is the central control mechanism they have used to build their power for a hundred years. We tend to write off anybody who is strongly "Left" or strongly "Right" in his politics. He may be sincere; he may be honest; but in practice he will do exactly what the Jews want him to do. He is a carrier of the Jewish disease germ, whether he knows it or not.

The Jewish system of rule is all pervasive. It is a media system; everybody knows that. It comes into your living room on the TV screen, in the newspaper, in the magazines, in books. If you are in touch with any kind of communications at all you cannot escape it. Their propaganda is complex and varied. It is right wing and left wing, Democratic and Republican, religious or atheist. You have a wide variety of choice. At bottom it is all the same thing. All ruling classes try to obtain a favorable mental conditioning of their subjects, but no other ruling class has ever gone about the matter as thoroughly as the Jews. They rule more by mental conditioning than any other ruling class in history.
